

Konstantinos Koutsidis

Objective

Computer Science student with a strong passion for solving complex problems through innovative technological solutions. Seeking opportunities to apply and further develop my software development skills, contribute to impactful projects, and continuously learn and adapt in a dynamic and demanding professional environment.

Professional Experience

Diploma Thesis – Complex Event Recognition Systems & Big Data Analysis
Department of Computer Science & Engineering, University of Ioannina
2025 – Present

Working on the design and implementation of a Complex Event Recognition system capable of processing large-scale streaming data. Focusing on efficient event detection, data processing pipelines, and real-time analysis using modern Big Data technologies and methodologies.

Education

- High School Diploma (2020) – Graduated with top marks (20/20).
- B.Sc. in Computer Science & Engineering (2020 – Present)
University of Ioannina – Currently working on Diploma Thesis.

Certifications

- First Certificate in English – University of Cambridge (2016)
- Certificate of English Language Proficiency – Michigan State University (2019)

Currently attending German language courses aiming to obtain the Goethe-Zertifikat B2.

Workshops

- Introduction to Data Science – Udemy (2024)
- TeamViewer Engineering Workshop Day – TeamViewer (2024)
Insight into Agile methodologies (Scrum, Product Owner roles) and software engineering workflows.

Active attendee of entrepreneurship & innovation events (e.g., TEDx Ioannina) to stay updated on industry trends.

Programming Skills

Programming Languages

- Java
- C / C++
- Python

Familiar with

- Pandas - Jupyter Notebooks
- Spring Boot
- Unity
- SQL bases

Interests

- Chess
- Traditional Instruments
- Football
